To the Board of Directors of U.S. Boston Capital Corporation:

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of U.S. Boston Capital Corporation (the "Company"), as of September 30, 2019, and the related statement of operations, changes in stockholder's equity, and cash flows (collectively, referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Supplementary Information

The information contained in Schedule I - Computation of Net Capital Pursuant to Rule 15c3-1; Schedule II - Computation for Determination of Customer Account Reserve Requirements Under Rule 15c3-3 Exhibit A; Schedule III - Information Relating to the Possession or Control Requirements Under Rule 15c3-3 Exhibit A, (collectively "supplementary information") has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

We have served as the Company's auditor since 2016.

The Company acts as the principal underwriter for and the distributor of the Pear Tree Funds (“Pear Tree Funds”). The Company also acts as placement agent for private placements of limited liability companies formed and managed by an affiliated registered investment advisor, Pear Tree Partners, LP (“Pear Tree Partners”). In addition to acting as placement agent, the Company provided custodial services to each of the limited liability companies through March 31, 2019. Custodial services include the protection of cash and the safekeeping of physical securities.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of ASC Topic 606, Revenue from Contracts with Customers

On October 1, 2018, the Company adopted ASC Topic 606, Revenue from Contracts with Customers (“Topic 606”) using the modified retrospective method applied to those contracts which were not completed as of October 1, 2018. Results for reporting periods beginning after October 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605. The adoption of this standard did not result in a transition adjustment.

Revenue Recognition

The Company recognizes revenue and expenses related to distribution and marketing fees and sales-revenue sharing over the performance obligation period, generally monthly or quarterly.

U.S. BOSTON CAPITAL CORPORATION

Notes to Financial Statements
For the Year Ended September 30, 2019

2. Summary of Significant Accounting Policies (continued)

Revenue Recognition (continued)

Commissions Investment company

Sale of Investment company commissions are recorded in the month they are earned.

Sales compensation

Sales compensation is from sales of Pear Tree mutual funds. Income is recognized in the month received.

Service Fees

Service fees are received as needed to support additional distribution and servicing efforts. These fees are recognized in the period they are received as the amounts are not determined and constraint not satisfied until such time. The Company also generates commissions when acting as an agent for customer securities transactions.

Private Placement

Revenue from private placements is recognized and earned at the point in time that the performance obligation is completed, which typically occurs on the transaction date. On occasion private placement fees are received and simultaneously paid out as commissions in the form of securities in lieu of cash and are recorded at fair value of such securities received on the date all revenue recognition criteria is met. Management's estimate of fair value of such securities is based primarily on the per share price of the underlying issuing company received in recent capital transactions for similar shares.

Trading Commissions

Trading commission revenues and expenses are recorded in the accounts on the trade date as the performance obligation is not satisfied until such time. In addition, the Company records revenues from contractually reimbursable expenses when incurred and invoiced.

Custody

The Company recognizes revenue related to custodial services over the contract period, generally quarterly or annually. Custodial service revenue performance obligations are simultaneously provided by the company and consumed by the customer. Should any performance obligation not be fulfilled on the above revenue arrangements they are recorded as deferred revenue until the performance obligation is fulfilled. Related expenses are recorded concurrently with revenue.

The Company has adopted the practice expedient for recognizing employee commissions when paid, as contracts generally do not extend beyond one year.

U.S. BOSTON CAPITAL CORPORATION

Notes to Financial Statements
For the Year Ended September 30, 2019

2. Summary of Significant Accounting Policies (continued)

Concentrations of Credit Risk

The Company maintains cash accounts with a high credit quality, Boston-based bank, the daily balances of which at times may exceed Federal Deposit Insurance Corporation (FDIC) limits.

A substantial portion of the Company's revenue and expenses are attributable to affiliates under common control or managed by such affiliates.

Cash and Restricted Cash

Restricted cash represents amounts held for customers in a special reserve bank account in compliance with SEC Rule 15c3-3, federal and other regulations. Accounting Standards require that in the statement of cash flows, amounts generally described as restricted cash and cash equivalents are included with cash when reconciling the beginning-of-period and end-of-period total amounts.

3. Income Taxes

The Company files a consolidated tax return with the Parent. Consolidated tax expense is allocated using the separate return method. Under this method, taxes are reported in the financial statements for a subsidiary as if it filed a separate return.

Deferred tax assets and liabilities are determined based on differences between the basis of assets and liabilities for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled and are measured using enacted tax laws and rates that will be in effect when the differences are expected to reverse. The deferred tax liability at September 30, 2019 relates to the unrealized gain on marketable securities.

The components of current and deferred income tax expense are as follows:

Current tax expense	
State	\$ 3,740
Total current tax expense	<u>3,740</u>
Deferred tax benefit	
Federal	(12,801)
State	<u>(4,822)</u>
Total deferred tax benefit	<u>(17,623)</u>
Total income tax benefit	<u>\$ (13,883)</u>

U.S. BOSTON CAPITAL CORPORATION

Notes to Financial Statements For the Year Ended September 30, 2019

3. Income Taxes (continued)

Deferred tax liabilities are measured using enacted tax rates applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Uncertain Tax Positions

Tax positions taken by the Company are required to be evaluated to determine whether they are more likely than not to be upheld under regulatory review. The estimated tax impact of tax positions which do not meet the more-likely-than-not criteria is required to be recognized in the financial statements. Generally, the Company is no longer subject to federal

and state examinations by tax authorities for years prior to September 30, 2016. There are no uncertain tax positions that require accrual or disclosure at September 30, 2019.

U.S. BOSTON CAPITAL CORPORATION

Notes to Financial Statements
For the Year Ended September 30, 2019

5. Marketable Securities and Fair Value Measurements (continued)

Fair Value Hierarchy

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, as of the measurement date. The standard specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs). In accordance with ASC 820 the following summarizes the fair value hierarchy:

- | | |
|---------|---|
| Level 1 | Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. |
| Level 2 | Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data |
| Level 3 | Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available. |

The valuation methodologies used to determine fair value of the Company's marketable securities remain unchanged during the year ended September 30, 2019.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less than observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

U.S. BOSTON CAPITAL CORPORATION

Notes to Financial Statements
For the Year Ended September 30, 2019

5. Marketable Securities and Fair Value Measurements (continued)

Changes in valuation techniques may result in transfers of an investment's assigned level within the hierarchy. There were no transfers during the year. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

Items Measured at Fair Value on a Recurring Basis

The Company's financial assets that are reported at fair value in the accompanying statement of financial condition as of September 30, 2019 are as follows:

Fair Value Measurements				
	Level 1	Level 2	Level 3	Total
Mutual fund – diversified emerging markets	\$ 294,853	\$ -	\$ -	\$294,853
Mutual fund – foreign small/mid value	478,724	-	-	478,724
Total assets at fair value	<u>\$ 773,577</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$773,577</u>

The mutual funds were valued at the daily closing price as reported by the fund. These funds as a registered open-end mutual fund, are required to publish their daily net asset value and to transact at that price.

6. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital of \$250,000 and requires that the ratio of aggregate indebtedness to net capital, as defined, not exceed 15 to 1. Net capital and aggregate indebtedness change from day to day, however, at September 30, 2019, the Company had net capital of \$526,544, or \$276,544 in excess of its minimum net capital requirement, and its ratio of aggregate indebtedness to net capital was 0.69 to 1.

Part III of the most recent Focus Report of U.S. Boston Capital Corporation on Form X-17a-5 is available for examination or copying at the Boston regional office of the Securities and Exchange Commission or at the office of the Company, 55 Old Bedford Road, Lincoln, Massachusetts, 01773.

7. Commitments and Contingencies

From time to time, the Company is a party to certain claims and litigation incidental to its business. In addition, the Company has examinations performed by FINRA. FINRA has the ability to enforce penalties and fines. Management is of the opinion that the ultimate resolution of any known penalties and fines, either individually or in the aggregate, will not have a material impact of the Company's financial position.

8. Subsequent Events

The Company has evaluated subsequent events through November 16, 2019, the date the financial statements were issued. The Company is not aware of any subsequent events which would require recognition of or disclosure in the financial statements.

240.15c3-1 and 240.15c3-3(e), determining whether the information used to assert compliance with 240.15c3-1 and 240.15c3-3(e) was derived from U.S. Boston Capital Corporation's books and records, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

As described in the accompanying compliance report, a material weakness has been identified in U.S. Boston Capital Corporation's internal control over compliance during the fiscal year ended September 30, 2019. There was a material weakness in their controls related to the customer statements that were not sent as required by NASD Rule 2340.

In our opinion, U.S. Boston Capital Corporation's statements referred to above are fairly stated, in all material respects.
